

DAR-5000 SERIES STANDALONE HOME AND BUSINESS VOICE LOGGER

⑤ ④ ① ② ③

Overview:

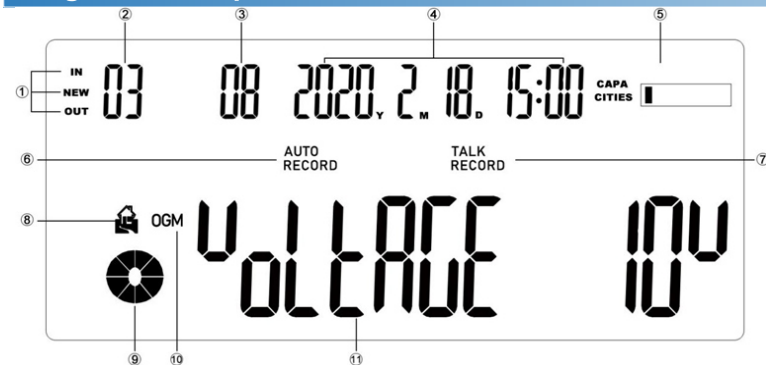

The model DAR-5001A(Crime Prevention & Anti-Harassment) Voice Logger has been designed to protect from nuisance phone calls before your phone even rings, which is connected between the phone and the telephone socket. Most telemarketers hang up when they hear the warning message.

DAR-5000 series voice logger will automatically record calls on analog business & home Phone/PSTN/Landline/FCT/PWP lines(Voltage Trigger) or Radio/Intercom/MIC voice lines(via Audio Trigger). Recordings are stored on the included 8GB-128GB removable SD card. Recordings can be played back on the DAR-5000 itself or you can remove the SD card and playback/store the recordings on any MAC or Windows computer; no extra software is needed.

DAR-5000 series Voice Logger is a complete stand alone call / voice recording solution, it does not require the use of a computer or any extra software. Set-up takes less than 5 minutes and it essentially runs on auto pilot when calls are set to record automatically. The DAR-5000 helps you stay organized, the time/date of each recording is displayed on the LCD screen of the device; alternately each recorded file on the sd card is named in chronological order and stamped with the time/date.

- 2-Current Serial Number
- 3-Total No. of Recordings of Day
- 4-Time / Date Display
- 5-SD Card Capacity
- 6-Automatic Recording Indicator
- 7 - Recording Indicator
- 8 - Answering Indicator
- 9 - Play Progress Bar
- 10 - Announcement Indicator
- 11 - Segment Code Display

ITEM	SPECIFICATION
Audio Quality:	WAV
Recording Modes:	Trigger(Voltage+Audio)
REC Applications:	PSTN/FCT/FWP/./Radio
Memory Size:	SD Card(8GB-128GB)
Recording Capacity:	66hrs per 1GB
Loop Recording:	Yes
Headphone Jack:	Yes
Built-in Speaker:	Yes
Real Time Clock:	Yes
Wieght / Dimensions:	5.8oz / 5.7" x 3.5" x 1.6"
Compatibility:	MAC / Windows
Support CID:	DTMF/FSK
Input Voltage:	DC8V(AC powered)
Input Impedance:	AC: 100K, DC: 5.1M
S/N Ratio:	>60dB
Operating Current:	<10mA
Power Consumption:	0.8W

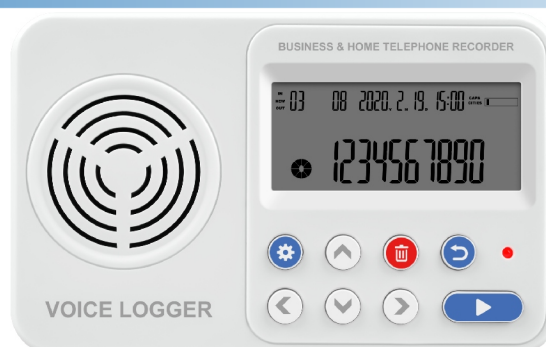

KEY FEATURES OF DAR-5000 SERIES EMBEDDED HOME & BUSINESS VOICE LOGGER:

- Automatic Voltage-activated and Audio-activated Recording**
 All incoming and outgoing calls can be set to record automatically via Voltage-trigger. Moreover, DAR-5000 logger can also be used to automatically record Intercom/Radio/MIC voice lines with sensitivity levels via Audio-trigger.
- Voice/Call Announcement & Answering Machine/Voice Mail**
 Customized OGM greetings can be made and used as an Answering Machine or Call Annoucement (can be turned off).5001A is available with functions Call Announcement before ringing(Crime Prevention) and Answering Machine. 5001B is available with functions Call Announcement after ringing and Voice Mail. 5001C and 5002C are without such functions.
- Time/Date Stamp**
 Stay organized, the time/date of each recording is displayed on the LCD screen of the DAR-5000; alternately each recorded file on the sd card is named in chronological order and stamped with the time/date.
- External Speaker / Headphone Jack / Computer Playback**
 Recordings can be played back on the external speaker or through headphone jack. Remove the SD card and playback/store the recordings on any MAC or Windows computer; no extra software is needed.
- Analog Phone Line Compatible**
 Works with analog phone lines which makes the DAR-5000 a perfect fit for home or office/business use.
- Caller ID/CDR(Call Detail Records) info**
 Displays the callers information on the LCD screen, and CDR info is directly as part of recording files name.
